All-In-One Cyber Insurance & Protection
For Households & Individuals

Life is more connected – stay better protected

Cyber threats like phishing, ransomware, and account hijacking are growing every day. As we rely more on laptops and smart devices, strong cyber security is essential to protect what matters most. Connection is great, but it makes us vulnerable.

**48%** of consumers reported experiencing cyber crime, including scams, fraud, or hacking incidents, within the past year[1]

32% of adults reported falling victim to identity theft, financial fraud, or unauthorized account access in the past year[2]

Cyber insurance should do more than cover costs – it should provide the right tools and experts when you need them

When a cyber event hits, you need more than coverage—you need expert help to protect your identity, privacy and peace of mind. BOXX delivers real support and strong protection before, during, and after an incident.

- ✓ Comprehensive coverage
- ✓ Real-time response and an Equifax Complete™ membership
- ✓ Threat detection tools and actionable risk insights

Helping you respond and recover when a cyber incident happens

Cyberboxx® Home provides cyber risk protection to help individuals and families avoid or minimize the impact of cyber attacks. While not all attacks can be prevented, our tools and expertise help ensure you recover quickly if you become a victim.

BOXX INSURANCE | PREDICT. PREVENT. INSURE.

![BOXX INSURANCE — A specialist cyber insurance and protection company]

Cyberboxx® Home goes beyond traditional cyber insurance—by offering all-in-one threat prediction, breach protection and cyber coverage.

✅ **Primary policy highlights:**

🛡 **Cyber Attack** | Limit of $25,000

💬 **Cyber Bullying** | Limit of $25,000
Pays for the costs of recovering from a cyber bullying attack, including psychiatric counselling service, legal expenses, temporary relocation expenses and social media monitoring.

🔗 **Data Breach** | Limit of $25,000
Pays for costs associated with forensic IT and legal reviews, notification and recovery services.

🏠 **Home Title Recovery Expenses** | Limit of $25,000
Pays expenses resulting from an identity theft, including lawyer and court filing fees for the recovery of the title.

Hackbusters®: Cyber support that starts before you even file a claim

INCLUDED WITH YOUR CYBERBOXX® HOME POLICY

BOXX Hackbusters® combines expert-led support and proactive tools to help your household predict, prevent, respond and recover from cyber threats — without waiting for a claim to be approved.

Here's what you get:

- **24/7 Incident Response**
Immediate access to our Hackbusters® team to contain threats and guide recovery — no need to file a claim first.

Equifax Complete™ Premier Membership

INCLUDED WITH YOUR CYBERBOXX® HOME POLICY

Equifax Complete™ Premier is a comprehensive credit and identity protection service for individuals seeking stronger control over their financial health.

Once activated, the membership includes:

- **Credit & ID Monitoring**
Continuous surveillance of your credit files across Equifax, Experian, and TransUnion, with alerts on key changes. As well as alerts if your SIN is detected on suspicious websites to help prevent identity misuse.

- **Identity Restoration**
Access to dedicated specialists to help recover your identity if theft occurs. As well as help with cancelling and reissuing lost or stolen cards and IDs — and up to $1 Million in Identity Theft Insurance.

- **Annual 3-Bureau Credit Reports and Scores**
Receive comprehensive credit reports and VantageScore® 3.0 scores from all three major bureaus once every 12 months.

Cyber threats are growing – don't face them alone

Even households with minimal online activity can be exposed to digital threats, making personal cyber security essential in today's connected world. Here are some common threats we investigate and continuosly monitor for:

Phishing Scams
Fraudulent emails or messages that trick individuals into revealing sensitive information.

Ransomware
Malicious software that locks personal files until a ransom is paid.

Identity Theft
Unauthorized use of personal information for financial or criminal purposes.

Social Engineering
Manipulating to gain access to sensitive data or alter invoice details and payment instructions.

Password Hacking
Unauthorized access to accounts by cracking weak or reused passwords.

Spyware
Malicious software that secretly monitors online activity or captures sensitive data.

Malware
Viruses, worms or trojans infect devices to steal, damage or control information.

Social Media Attacks
Impersonation or account hacking to exploit personal contacts or data.

Digital Footprint Monitoring
Monitoring personal domains and online presence for exploitable vulnerabilities.
